- ✦ One of the largest chain of education consultant.
- ✦ Experience of providing guidance to thousands of students from LKG to PG.
- ✦ Transparent and system oriented process.
- ✦ Associate partner with career utsav.

# OPPORTUNITY

Education consultants use their experience in learning, teaching, and assessment to help develop the curriculum, or work with organisations and learners to identify and support their specialist needs.

The growth is immense, the opportunities vast, and the impact strong. But putting statistics aside, a profession in the education industry gives you stability. More importantly, it gives you a personal fulfilment that will keep you going.

With the increasing number of Educational institute, a higher degree of specialization in course content coupled with an increasing number of course, Choosing a right career in term of college & course has become a serious and tedious affairs. Unfortunately due to lack of information & knowledge not many students are able to get it right. Hence, over the last few years educational counsellors have merged as a major support system to guided students. With their extensive knowledge of schools and universities, educational consultants can broaden the potential choices, and provide vital help in analysing factors such as cost, location, and curriculum. Also there are many career and personality test developed to know the right attributes of students based on which one can decide the right career choice. With an experienced educational consultant, students & families have the opportunity to explore a wider variety of options to select the most suited career path for them.
